

## **Certification in compliance with ECE R90 regulation.**

Brembo S.p.A. - as a producer of brake systems and components as original equipment and for the independent spare parts market - hereby certifies that its products are manufactured to the highest technical and quality standards defined for the automotive industry. Furthermore, and in accordance with its own code of ethics, Brembo S.p.A. is committed to a policy of continuous improvement in terms of health, safety, work conditions and the environment.

With regard to the above, Brembo S.p.A. declares and certifies that all Brembo products of the friction range (brake discs, brake pads, brake drums, brake shoes and brake shoes kit) are compliant with ECE R90 certification envisaged by EC Directive 98/12/EC, which has been implemented and harmonised in all European markets. This is certification of "objective quality" and is confirmation of the complete reliability of the individual product.

In accordance with the requisites of this certification, which is issued by the Ministry of Transport of each individual European country and is valid in all other European countries, each product must bear a unique homologation number, marked on the packaging and on the product itself, authorising its sale.
